

Mrs Natassa Kouvertari
Project Manager
Lloyd's Register Maritime Decarbonisation Hub

Natassa Kouvertari is a Project Manager at the Lloyd's Register Maritime Decarbonisation Hub. She has undertaken a number of positions in the Marine Business and South Europe Projects team at the Lloyd's Register in Greece since she first joined in 2004.

Anastasia holds a BA in International and European Studies from Panteion University of Social and Political Sciences followed by an internship at the Greek Ministry of Foreign Affairs, at the Directorate for UN and other International Specialized Organisations.

In 2003, she successfully completed her MSc in Environment and Development at London School of Economics. Not only her academic background but also her professional skills are closely associated with the environmental discipline. Anastasia is an IEMA Associate Member with a genuine interest in projects that foster innovation towards a sustainable future.
