

Nick Chubb
Founder, Strategy Director
Thetius

Nick Chubb is a leading independent voice on the future of the maritime industry. He is the Founder and Strategy Director of Thetius, a research firm that exists to equip maritime technology leaders to make strategic decisions.

Nick started his career as a ship's navigator before progressing ashore to work in maritime digital transformation and research. Nick and the Thetius team regularly advise a range of maritime stakeholders including shipping companies, ports, charterers, government bodies, investors and technology businesses.
